

# WEBER CENTER FOR THE PERFORMING ARTS

The Lyche Theater house will be seated by section working from house left to house right, starting from the front of the house to the back of the house.

Patrons will be assigned seats as they arrive and as the theater house fills. "Pods" or "family units" will be seated together with a single seat left empty between "Pods" or "family units". House Management will determine the best location within the theater house for "Pods" or "family units" to be seated based on the number of people in each group. Seats will not be left open for people arriving at a later time. Only people present in the group at the time of seating will be seated. Anyone not present in the group will be seated as they arrive. Maximum occupancy has been reduced to aid in physical distancing.
